

Progress Report

Day 25 — Reports Analytics & CSV Export

Task Management MERN Stack Platform

Shafin Nigamana | 13 June 2026

Tasks Completed

2.1 Reports Analytics Visualization

- Integrated Recharts into the Reports module.
- Replaced static weekly completion data with a visual bar chart.
- Displayed task completion trends using actual report metrics.

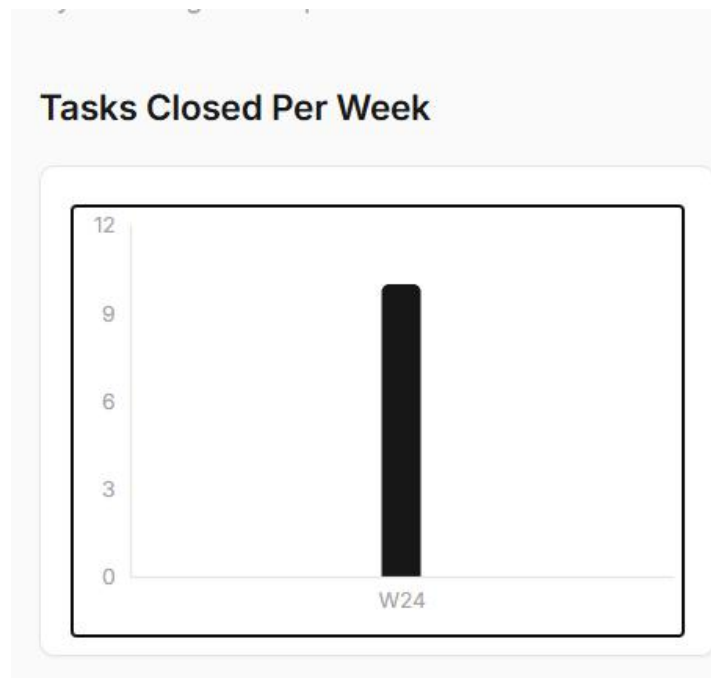

Figure 2.1: Tasks Closed Per Week analytics visualized using a bar chart.

2.2 Weekly Task Completion Chart

- Rendered weekly task closure statistics using Recharts.
- Configured responsive chart rendering for different screen sizes.
- Displayed completion counts using real audit log data.

Reports

System insights and performance overview

Tasks Closed Per Week

Figure 2.2: Weekly task completion statistics displayed through Recharts.

2.3 Contributor Leaderboard Enhancement

- Improved the presentation of contributor rankings.
- Added visual ranking indicators for the most active contributors.
- Displayed contributor activity counts in a structured leaderboard format.

Top Contributors		
1	Shafin Nigamana	31 actions
2	Manager User	6 actions

Figure 2.3: Enhanced Top Contributors leaderboard with ranking indicators.

2.4 CSV Export Functionality

- Implemented report export functionality through a dedicated backend endpoint.
- Generated CSV data using report metrics collected from MySQL audit logs and MongoDB task records.
- Enabled authenticated download of report data from the Reports page.

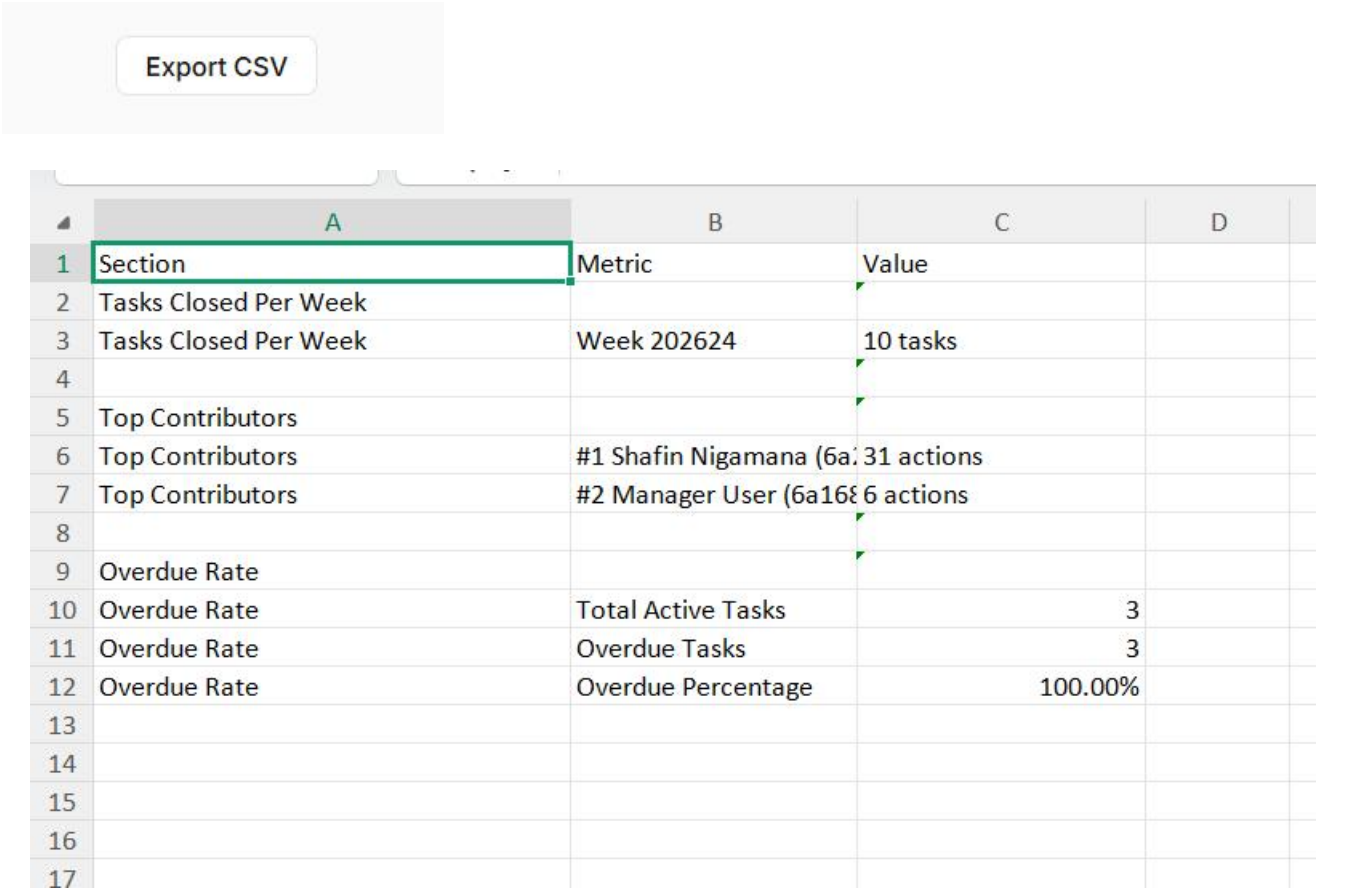

Figure 2.4: CSV export feature allowing report data download.

2.5 Reports Dashboard Refinement

- Improved overall report dashboard presentation and layout.
- Added export controls within the report header.
- Maintained responsive behaviour across desktop and mobile devices.

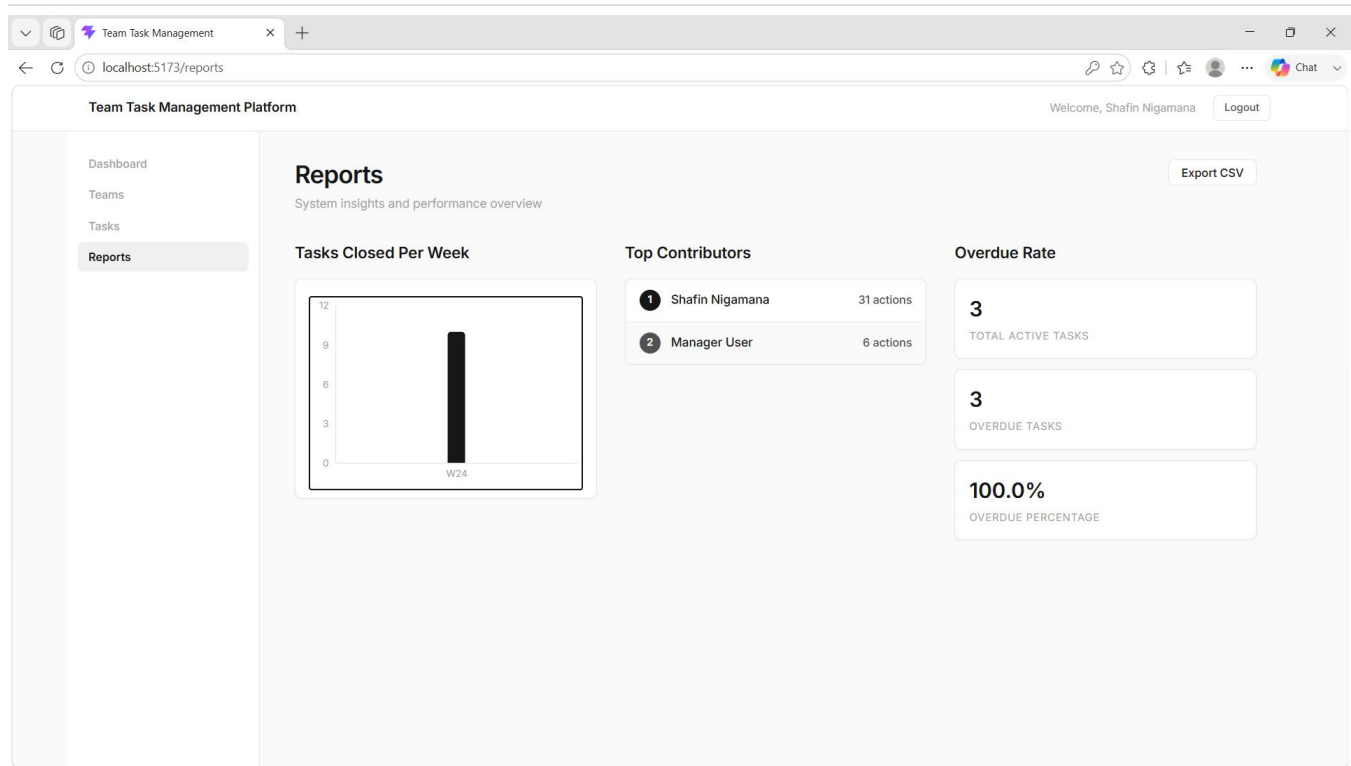

Figure 2.5: Complete Reports dashboard showing analytics, leaderboard, and export functionality.

2.6 GitHub Update

Changes were committed, tested, and pushed to the project repository after successful verification of analytics visualization and CSV export functionality.

The screenshot shows a GitHub commit page for the repository 'ShafinNigamana/task-management-mern'. The commit hash is '4e475281812567fae5585b083f16d446a7e54344'. The file explorer on the left shows the project structure: client, src, pages/Reports, services, styles, and various configuration files. The main area displays the diff for 'client/package.json' and 'client/src/pages/Reports/ReportsPage.jsx'. The 'package.json' diff shows updates to dependencies for 'react-router-dom' and 'recharts'. The 'ReportsPage.jsx' diff shows the addition of imports for 'getMetrics' and 'exportMetrics' from the 'reportService' and the corresponding JSX elements for the bar chart.
